

How do I change the logo on the agent login screen?

Alexandra Mead - 2023-08-17 - Kommentare (0) - Configuration

If you want to update the Logo that's visible on the login screen for your Agents in **Admin > Configuration > Branding**. In the section Agent Branding, you can update the Logo that appears on the login screen under the option **Logo**.

The screenshot shows the Deskpro Admin interface. On the left is a navigation sidebar with categories: OVERVIEW, CONFIGURATION (with sub-items: Branding, Languages & Locales, Phrase Translation, Business Hours), CHANNELS, AGENTS, HELP CENTER, TICKET STRUCTURE, FEATURES, BUSINESS RULES, CRM, APPS & INTEGRATIONS, and DATA. The main content area is titled 'Branding' and includes a subtitle: 'Brands allow you to provide support for multiple brands through one helpdesk. Each brand has its own customer facing Help Center you can customize.' Below this are three tabs: 'Help Center Configuration', 'Messenger Setup', and 'User Registration'. The 'Agent Branding' section contains several fields: 'Helpdesk name' (text input with value '221 B Helpdesk'), 'Favicon' (file upload button), 'Logo' (file upload button with 'Choose a file' and 'Drag and drop' options, highlighted with a red box), 'Avatar' (file upload button), and 'Helpdesk URL' (dropdown menu with value 'https://221benenergy.deskpro.com/').

Hit **Save** to update your company logo.

This Logo will now be visible to your Agents when they log in to the helpdesk:
