How do I only display the Help Center Welcome Message to User's who are logged in?

Lara Proud - 2025-04-25 - Kommentare (0) - Admin

If you only want your Help Center's Welcome Message to display to Users who are logged in, you can edit this by adding an **if** statement to the Homepage Template.

Go to **Admin** > **Help Center** > **Help Center Design** and open **Edit Home Page** in the page layout and design section.

On line 14, you'll see the sub-template for the Welcome Box:

You'll need to wrap this section in an if statement.
Add this before the sub-template:

```
{% if 2 in app.user.getUsergroupIds() %}
```

And this after:

```
{% endif %}
```

Note

Usergroup ID 2 is the Registered Usergroup so this statement is instructing the system to only serve this content to logged-in users.

So it looks like the below:

```
1  Extends: Theme::layout.html.twig
2
3  {% block page_content %}
4      <div class="dp-po">
5          <main id="main" tabindex="-1" class="dp-po-main dp-po-homepage">
6              <div class="container">
7
8                  {% block content_header %}
9                      {% if theme_option('theme_options') is null or theme_option('theme_options', {}).show_section_navigation %}
10                         <h2 class="sr-only">Tableau de bord</h2>
11                         Theme:Portal:nav_buttons_big.html.twig
12                     {% endif %}
13
14                     {% if 2 in app.user.getUsergroupIds() %}
15
16                     Theme:Portal:welcome-box.html.twig
17
18                         {% endif %}
19
20                 {% endblock content_header %}
21
22                 {% if can_use_news() %}
23                     <div class="dp-po-homepage-news">
24                         <div class="row">
25                             <div class="col-sm-6">
```
