# How to Mark an Email as High Importance in Deskpro

Kim - 2024-09-18 - [Kommentare \(0\)](#) - [Using Deskpro](#)

When a user sends you an email marked as high importance in Outlook, you might want to see that reflected in Deskpro. To do this, follow these steps:

## 1. Create a 'High Importance' Label:

- Navigate to **Admin > Ticket Structure > Ticket Labels > + New**.
- Create a new label and name it "High Importance".
- Assign it a red colour to match the visual cue used in Outlook.

**Add: New Label**

Name\*

High importance

Color\*

Red

Create Cancel

## 2. Create a New Ticket Trigger:

- Go to **Admin > Business Rules > Triggers > New Ticket Triggers > + New**.
- Give it a recognizable title, like **'Add High Importance Label.'**
- Set the criteria as follows: **Email header > Importance > is > high**.
- The action should be: **Add labels > High importance**.

### 3 Criteria

The criteria section is a list of terms that must match before the actions are applied to the Ticket.

**When** the following conditions are met:

Email header Importance is high

Or when the following conditions are met:

Select... Select...

### 4 Actions

These actions will apply when all of the criteria pass.

**Then** the following actions will run:

Add labels High importance!

Create

Cancel

This will ensure that any incoming email marked as high importance is automatically labelled in Deskpro.

Once set up, the label will be applied to emails marked with high importance, making them easy to identify, as shown in this example:

## Immediate Attention Required

Jane Doe

To: contact@nexgen.deskpro.com

The screenshot shows a web browser window with a tab titled 'Immediate Att...' and the email address 'kim.triel@deskpr...'. The main content area displays a ticket titled 'Immediate Attention Required' with a 'High Importance!' label. The ticket status is 'Awaiting Agent' with a '1' in a circle next to it. Below the status, there are fields for 'Agent', 'Team', and 'Followers'. The 'Agent' field is empty, 'Team' is '4 mins Ticket Open', and 'Followers' is '4 mins User Waiting'. There is also a 'Next event' field with a '-' sign. Below these fields is a section for 'USER & CC'S' with a user card for 'Jane Doe' (janedoe@email.com). There is also an 'ORGANIZATION' section with a 'Select Organization' dropdown. On the right side, there is an 'EMAIL' section with the following text: 'Hi there, We have detected an issue with y If you need assistance or have any Thank you for your cooperation. Sincerely, Jane'.

### Sending an Email Marked as High Importance from Deskpro

If you need to send an email marked as high importance, you can modify the "Send user new reply from agent" trigger:

#### 1. Adjust the Original Trigger:

- Go to **Admin > Business Rules > Triggers > New Reply Triggers > Send user new reply from agent**.
- Add an extra criterion: **Labels > does not contain > High importance**.

This ensures the trigger won't run if the "High Importance" label is already added to the ticket.

The screenshot shows the 'Criteria' section of a trigger configuration. It has a title 'Criteria' and a subtitle 'The criteria section is a list of terms that must match before the actions are applied to the Ticket.' Below this, there is a 'When' section with the text 'the following conditions are met:'. There are two criteria listed: 'Agent message exists' and 'Labels does not contain High importance!'. Each criterion has a trash icon and a plus icon next to it.

## 2. Create a Copy of the Trigger for High Importance Emails:

- Copy the existing trigger and adjust the criteria to: **Labels > contains > High importance**.
- In the action, set a header to add: **Importance | high**.

Now, when you apply the "High Importance" label and reply to the email, it will include the high importance flag in Outlook:

3 Criteria

The criteria section is a list of terms that must match before the actions are applied to the Ticket.

**When** the following conditions are met:

	Agent message	exists		
<b>And</b>	Labels	contains	High importance!	

With these steps, Deskpro allows you to effectively manage and send high-importance emails.
