

## Deskpro Android App Release 1.01

2017-10-04 - Benedict Sycamore - Kommentare (0) - Release Announcements

We're delighted to announce the release of Deskpro for Android 1.01

Deskpro for Android 1.01 includes the feature updates, bug fixes and improvements listed below:

### **Features:**

- Ticket attachments can now be opened
- Users now have the ability to 'set ticket to spam'

### **Improvements:**

- Department lists now display in the correct order set by user
- Date formats are now localized
- Users now have the ability to set captcha requirements via the app

### **Bug fixes:**

- Better helpdesk detection and recognition when HTTPS is enforced
- Blank log in error now resolved
