

DeskPRO Build #115 Released

2012-09-05 - Chris Padfield - Kommentare (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #115.

The following is an automatically generated list of changes in this release:

- Correct parent relation on news categories
- Dont count on-hold tickets in awaiting user reports
- Fix chat overview report showing no data
- Add proxy system to agent interface for use by widgets to allow cross domain requests.
- Update lang titles after upgrade

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
