## iPhone and Android Apps

2013-09-17 - Christopher Nadeau - [Kommentare \(4\)](#) - [Product](#)

### DeskPRO for iPhone and Android

This initial version of the DeskPRO app includes:

- Access your ticket filters to get lists of tickets
- View individual tickets, to see the ticket messages, notes, and properties
- Reply to tickets
- Change ticket properties like department, status, or agent
- Ticket notifications shows you real time ticket updates
- View inline images and download ticket attachments

Is there any way you could add a search to this?

R **Roshan**

vor 11 Jahren

Is there a newer version that will be released ?

S **Sanjay**

vor 11 Jahren

Very much required, as there is no way to reach out to unlisted ticket.
