Add sub-statuses as a filter grouping option Finished

We want you to add sub-statuses as a filter grouping option:

We have recently implemented our first sub status, and I'm noticing there is not option to sort by sub-status. I wanted a method to separate user issues from ongoing projects and requests so I added a sub-status under Awaiting Agent, but those tickets are now just sprinkled throughout my users help request with no way to sort them.

It would be great if you could show sub-statuses in the ticket overview filters in the first column of the UI:

Thanks for this suggestion, you are now able to group each of your Ticket Queues by Ticket Status and Substatus!
