Bulk-Remove Users Collecting Feedback

- MA Malou Axelstén
- **Όνομα φόρουμ:** #Feature Request

I would like a feature where I can bulk-remove orphaned users (i.e. users which their content has already been deleted).

I have a trigger that deletes tickets after 6 months, but need an option to remove users who have no tickets.

Could this be done through a Mass Action feature?

It would also be useful if the user list, in the CRM section, would also show if the user has any Chats or Tickets they are cc'd on
