DeskPRO Build #40 Released

2012-07-05 - Christopher Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #40.

The following is an automatically generated list of changes in this release:

- Switch `is_array` to `isset`. Whole point in that line is to check to see if it needs to be init'ed

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
