## Brand Information for Snippets Report

- JM John Monkhouse
- **Forum name:** #Feature Request

Hello,

We have many agents that are cross branded and would like to setup some snippets that would be universal for an agent.

It would be awesome if we could add these snippets.

`ticket.brand.logo`  
`ticket.brand.phone`  
`ticket.brand.address`  
`ticket.brand.fax`

This would be awesome for even signatures.
