Default forward as a new ticket Finished

- Patrick Wijntjes
- **Forum name:** #Feature Request

Since release 2019.6 it is possible to forward a ticket as a new ticket (<https://support.deskpro.com/en-GB/news/posts/forward-and-create-new-linked-ticket>). It would be nice if I as an admin can set this option on by default.

Hi Patrick,

You can set this checkbox to be selected by default in Admin > Tickets > Settings Towards the bottom of the Ticket Defaults area there's an option for 'Forward as a new linked ticket'.

Hope that helps!

Hi Matthew,

Thanks for you help! I expected this setting under Admin > Tickets> Forward Settings.

Kind regards,

Patrick
