KB custom fields possible issue. Archived

- Mike Offenbecher
- **Forum name:** #Bug Report

Creator custom fields for the KB through the admin interface. Are those suppose to show up when creating a KB article? I am having a difficult time finding where those changes take place.<br /> <br /> Thanks Guys...<br /> <br /> Mike

Just an update on this to say the option to define article fields has since been removed. This is a feature we are still working on but it's not quite ready yet as you saw. It'll be available in one of our upcoming builds.
