Personalize your Help Center and Content

Lara Proud - 2026-04-30 - [Comments \(0\)](#) - [Getting Started](#)

The first step to personalizing your helpdesk is by naming it and adding your website details.

To add information about your helpdesk go to **Admin > Configuration > Branding**. Select the brand you want to update:

The screenshot shows the 'Branding' configuration page in Deskpro. The left sidebar has 'Branding' selected under 'CONFIGURATION'. The main content area is titled 'Branding' and includes a sub-header 'Agent Branding'. Below this, there are several configuration fields: 'Helpdesk name' (Baker Street Energy), 'Favicon' (Choose a file or Drag and drop), 'Logo' (Change file), 'Avatar' (Change file), and 'Helpdesk URL' (https://bakerstreetenergy.deskpro.com/). At the bottom, there is a 'Brands' section with a search bar and three cards: 'Baker Street Energy' (highlighted with a red box), 'Flora Street', and 'Add New Brand'.

From here, you can edit your brand settings which will update them from the helpdesk defaults. You can update:

- Brand Name
- Favicon
- Avatar
- Brand Logo
- Website Name
- Website URL
- Help Center Name
- Your sub-domain

From **Admin > Configuration > Branding**, you can also create additional branded Help Centers for different end-user-facing Help Centers by selecting **Add a Brand**.

You can also manage the appearance of your various Help Centers in **Admin > Help Center > Help Center Design**. This lets you change your welcome message, fonts, and colors and add a logo to make your Help Center truly reflective of your brand.

Help Center Design

The screenshot displays the 'Help Center Design' configuration interface. On the left, the configuration sidebar includes:

- Theme:** A dropdown menu set to 'Help Center', with buttons for 'Clone to New Theme', 'Import Theme', 'Import and Replace current', and 'Export Theme'.
- Theme Options:** Fields for 'Welcome box title', 'Welcome message', 'Logo' (with a 'Delete' button), 'Favicon' (with a 'Delete' button), 'Splash Image' (with 'Browse Splash Images' and 'Upload Image' buttons), and a checkbox for 'Show navigation buttons on home page'. There is also a 'Featured articles' field.
- Colors:** A 'Save' button and a 'Discard Changes' button.

The main preview area shows the 'Deskpro' user interface. At the top, there is a navigation bar with 'Myself', 'Agent', 'User', and 'Guest' options, and a 'Contact Us' button. Below this is a search bar with the text 'How can we help you today?'. The main content area is titled 'Help Center' and features a row of six navigation buttons: 'Community', 'Guides', 'Knowledgebase', 'News', 'Files', and 'Contact Us'. Below the navigation buttons is a 'News' section with four article cards, each with a title and a date (JUN 16, JUN 15, JUN 15, JUN 14).

For more information about **Help Center Configuration and Branding** see the [Help Center Design](#) section of the Admin Guide.

Or read the next section in this **Getting Started** series on [Creating Dashboards](#).
