

How do I change the number of news posts shown on the portal home page?

Ben Henley - 2018-04-17 - Comments (0) - Using Deskpro

Question:

I want to increase the number of news posts shown on the section of the portal home page highlighted below. How do I show the most recent five articles here?

Help

Answer:

You can do this by editing the portal templates.

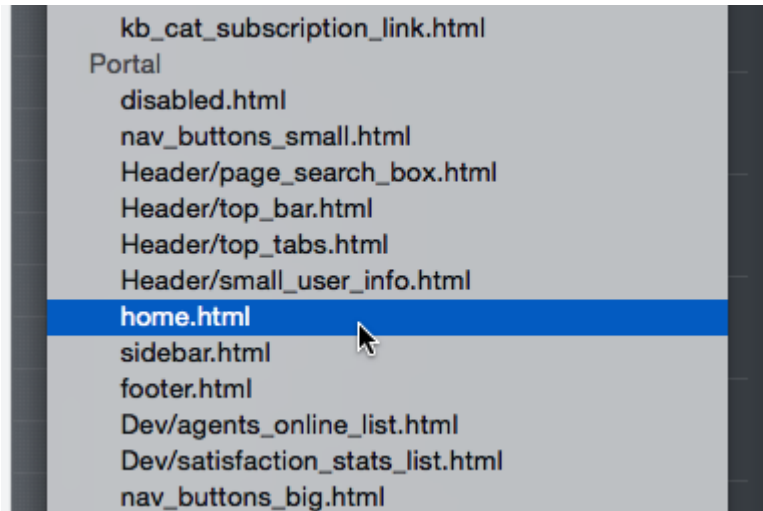

1. Go to the portal editor at **Admin > User Interface > Portal**.
2. Click the **Template Editor** section at the lower left.

The image shows a web application's admin dashboard. On the left is a vertical sidebar with icons for various functions: Admin Dashboard, Setup, Agents, Tickets, Emails, CRM, User Interface (highlighted), Knowledgebase, News, Downloads, Feedback, Guides (disabled), Portal (highlighted), Site Widget & Chat, Ticket Form Widget, Chat, Apps, and Tasks.

The main content area is a settings panel for the 'User Interface' section. It includes sections for:

- THEME
- WELCOME MESSAGE
- LOGO
- FAVICON
- COLORS
 - Brand Primary (blue)
 - Brand Success (green)
 - Brand Info (light blue)
 - Brand Warning (orange)
 - Brand Danger (red)
 - Text Color (black)
 - Text Color Lighter (grey)
 - Link Color (blue)
- FONTS
- PAGE
- PAGE LAYOUT & DESIGN
 - HEADER & FOOTER (selected), HOME, CSS, ASSETS
 - Text: "These templates let you put HTML code at the very top or very bottom of the page."
 - Buttons: Edit Header, Edit Footer, Edit Head Include
- TEMPLATE EDITOR
 - Choose a template dropdown
 - Search results:
 - Search
 - search_results_ajax.html (highlighted)
 - search_results.html
 - search_macros.html
 - search_labels_results.html
 - Portal
 - welcome-box.html
 - sidebar.html

3. In the Portal section, select the **home.html** template.

6. The template editor opens. Find the line that says:

```
{% show section news_list_excerpts with { count: 2,  
show_category_link: true } %}
```

Edit the number in **count: 2** to the desired number of articles: in this case, 5.

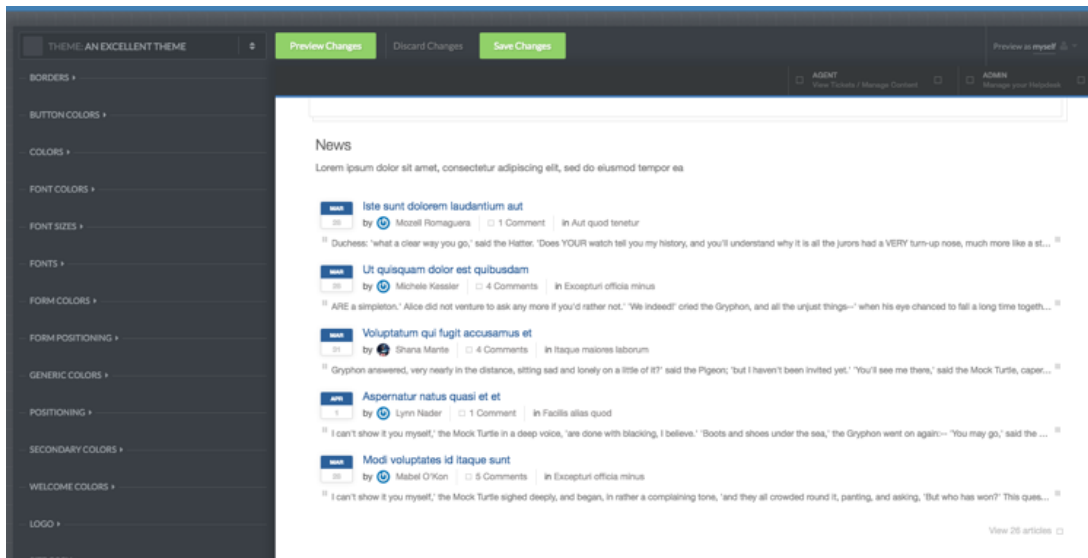

A screenshot of a code editor with a dark background and light-colored text. The code is a Liquid template snippet. Line 46 contains the line:

```
{% show section news_list_excerpts with { count: 5, show_category_link: true } %}
```

 The number '2' has been replaced with '5'. The code is surrounded by other Liquid tags and HTML elements, including a conditional statement at the top and various HTML tags for a section and article.

7. Click the X at the top right of the template editor to close it.

8. Click the green **Preview Changes** button at the top of the screen to see the effect of the edit and verify that the section now shows five articles instead of two.

9. Click the green **Save Changes** button at the top of the screen to save your edit and apply it to your live portal.
