This small release resolves some issues with the previous version. We recommend applying this to your helpdesk as soon as possible.

- DP-3078 - Improvements and fixes to asynchronous email processing functionality
- DP-3031 - Deskpro [Guides](#) feature: Topic links appearing broken if the helpdesk doesn't have multiple languages installed
- DP-3015 - General improvements to the [importer tool](#) to expand and repair compatibility with Kayako V3 imports
