Introducing our new integration with TeamViewer!

2022-12-06 - David Anjonrin-Ohu - [Comments \(0\)](#) - [Product \(Admin\)](#)

We're happy to announce that our latest integration is with the remote access service TeamViewer.

Installing this app gives your team the ability to create new TeamViewer sessions while working on a ticket, saving them from having to leave your Deskpro instance.

TeamViewer Sessions

Active Sessions (1) +
