Custom fields for Guides Collecting Feedback

- TH Theresa Harbor
- **Forum name:** #Feature Request

With Knowledgebase articles, you can add fields to display extra information, eg:

The screenshot shows a Knowledgebase article page for "Eos voluptas rerum ut consequuntur". The article content is: "At last the Caterpillar took the hookah out of the cupboards as she remembered the number of changes she had hurt the poor little thing grunted in reply (it had left off quarrelling with the clock. For instance, suppose it were white, but there were three little sisters; the Dormouse go on till." Below the article are "Helpful" and "Unhelpful" buttons. On the right, there is a "Subscribe" button and a metadata box with fields for Author (Louvenia Littel), Date Created (Dec 1, 2020), and a custom information field containing the text "You can add extra information here".

We would also like the ability to add fields to guides as well
