## Non-english characters in urls Collecting Feedback

- KZ Kőrösi Zoltán
- **Forum name:** #Feature Request

All of the non-english characters are changed to %39;-#039; in the urls. Can you replace these hungarian characters also please? I'm sure there are other languages with the same problem. It's better for SEO.

<br /><br /> <br /><br /> ö; => o;, <br /><br /> Ö;  
=> o;, <br /><br /> ó; => o;, <br /><br /> Ó;
