Showing the date of a Feedback Post not only in the main list
Finished

- Zsolt Kiss
- **Forum name:** #Feature Request

It would be useful if the Date of a Feedback Post would be shown not in the main list only, but inside of the post also.
When I search for something i get the the relevant items for instance from the feedbacks. When I choose one of them, there is no information when that post was born so I can't be sure its relevance considering the time.

Thanks for the suggestion, Zsolt. The date a Community Topic was submitted is now listed once you have clicked on the post, it will show on the right-hand side of the Help Center interface when you are looking at the Topic in addition to it being on the main listing page for the Forum.
