How can I change the name of the "Contact Us" tab?

Matthew Watt - 2023-08-30 - Comments (0) - Admin

Go to **Admin > Configuration > Phrase Translation**, then select the **Help Center UI** tab. Then you can type **"contact"** in the search box to quickly find the relevant phrases.

From here, you will want to search and click on the entry labeled `helpcenter.general.nav_contact`

The screenshot shows the Deskpro Admin interface. On the left sidebar, under 'CONFIGURATION', 'Phrase Translation' is highlighted. The main content area is titled 'Phrase Translation' and contains a search bar with 'contact' entered. Below the search bar, there are two sections: 'Help Center UI' and 'Help Center General (2)'. The 'Help Center UI' section has a table with columns 'Your Objects', 'Email', and 'Custom'. The 'Help Center General (2)' section has a table with columns 'Phrase' and 'Customized?'. The entry 'helpcenter.general.nav_contact' is highlighted in the 'Help Center General (2)' section.

Your Objects	Email	Custom
helpcenter.error.contact	If you feel that this is an error, please contact us.	
helpcenter.error.contact_us	Contact Us	

Phrase	Customized?
helpcenter.general.nav_contact	Contact Us
helpcenter.general.nav_contact_desc	Get in touch for help

A menu will open that will let you change your phrase on the right-hand side, then click save.
