## How do I change the fields on the ticket form?

Eloise Rea - 2023-09-19 - Comments (0) - Admin

## **Question:**

How can I change the fields displayed when a user submits a ticket from the portal?

## Answer:

You can add and configure ticket fields from Admin > Ticket Structure > Ticket Fields

Then you edit the form under **Ticket Structure > Departments** using the **Form** tab. This function is in the **Departments** section because each department can have its own form. This means you can request different information for a support ticket and a sales ticket.

Note that you use this screen to re-arrange the order of the form. There is also a separate tab for both the User and Agent form.

For more details, see <u>Department Forms</u> in the admin guide.
