How do I follow up automatically when a user stops replying? Eloise Rea - 2023-09-07 - Comments (0) - Ticket Structure

When a user stops replying without confirming the problem is resolved, it's a good idea to follow up and check what happened. Did they stop replying because your last response solved their issue, have they forgotten about it, or just got frustrated and given up?

A Follow Up workflow can be quickly created using the in-built Escalations under the ticket status Awaiting User.

Under **Admin > Ticket Structure > Statuses** click on the status **Awaiting User**. From here, you can set the amount of time to wait before the first warning and final warning.

Edit: Awaiting User

The Awaiting User status means the ticket is waiting for the user to reply		
Ticket count		
29		
After ticket has been awaiting user for 1	weeks	

Send the user an email when they have left their ticket open for some time. Typically these are alerts to tell the user to reply to their tickets, but you can also perform other actions.

If you want a more customized approach, this can be done by creating an Escalation under **Admin > Business Rules > Escalations.** From here, you can choose to only send this on custom criteria such as when the department is Support.

dd: Ne	w Escalatior	ı				
		ckets created from this point				
		sting tickets that already ex	ist in the helpdesk.			
1) Proper	rties					
tle* Follow up						
	tla an itsuill anneas	s through out the peart and	lucer interfece			
Enable		r throughout the agent and	user interfaces.			
	u					
2) Event						
The agent	has been waiting	for 💌	1	weeks		~
3) Criteri	ia					
riteria that	must match for th	ne escalation to apply to a t	icket.			
When	the following cor	nditions are met:				1
	Descentario		- 1-			
	Department		▼ is	Custon	ner Support 🛛 🗙	-
And	any of the follow	ing conditions are met:				1
	Select		▼ Select	-		
Action nese action Then		all of the criteria pass. ti ons will run				
	Send email t	:o user	•			
					O Edit temp	
	Templates	Ticket Awaiting Warnin	g		Q Edit temp	
	Templates To	Ticket Awaiting Warnin Email only ticket owner			Q <u></u>	
					~	
	То	Email only ticket owner				
	To From name	Email only ticket owner Helpdesk name			*	

After you create these Escalations, it will automate a key step in your support and means your Agents can never forget to follow up on an issue with a customer.
