

I want to buy Deskpro but I need you to send me a quote or invoice

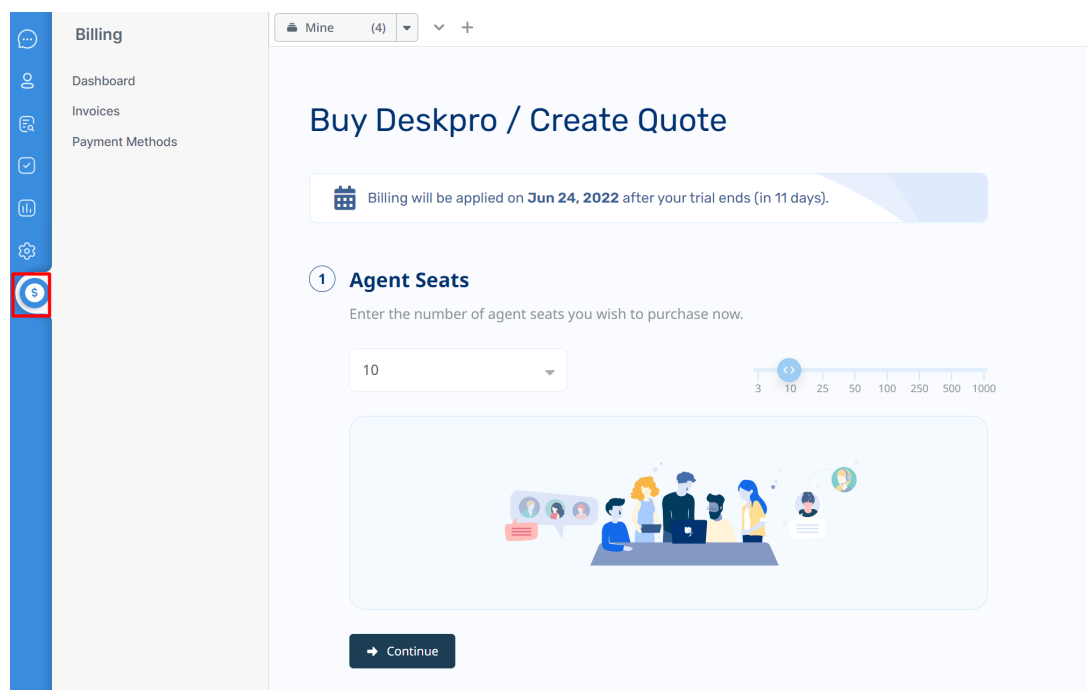

Ben Henley - 2023-08-10 - Comments (0) - Payment & Renewals

On-Premise

You can generate your own Deskpro On-Premise invoice easily by visiting the [Buy License](#) link on our website. You can select the number of agents you require, your plan, and any professional services and then generate an invoice or quote.

Cloud

Cloud invoices can be raised from the Billing area of your Cloud trial. You can access the Billing area through the \$ icon on the Navigation Bar, indicated below. You can select the number of agents you require, your plan, and any professional services and then generate an invoice or quote.

The screenshot displays the Deskpro user interface for purchasing. On the left, a vertical navigation bar contains icons for various functions; the icon representing billing (a circle with a dollar sign) is highlighted with a red square. The main panel is titled 'Buy Deskpro / Create Quote'. At the top of this panel, a notification states: 'Billing will be applied on Jun 24, 2022 after your trial ends (in 11 days)'. Below this, the section '1 Agent Seats' is shown, with the instruction 'Enter the number of agent seats you wish to purchase now.' A dropdown menu currently shows '10'. To the right of the dropdown is a horizontal slider with markers at 3, 10, 25, 50, 100, 250, 500, and 1000. An illustration of a group of people working together is positioned below the input fields. At the bottom of the main panel, there is a dark button labeled 'Continue'.
