

Added Hijri calendar (Arabic) for custom date fields (5.5)

2017-03-13 - Lauren Cumming - [Comments \(0\)](#) - [Product](#)

You can now choose between the option to use a Gregorian or Arabic calendar for custom date fields.

The screenshot shows a user interface for configuring a widget. At the top, there are fields for 'Agent' (John Doe), 'Team' (None), and 'Followers' (Broderick Mori). Below these are 'Labels' (bartell inc, bayer-o'kon, flatley-bednar, hahn ltd, kessler) and 'Language' (French). The 'New Calendar' field is empty. A date selection widget is open, showing the Hijri calendar for the month of Jumada al-Akhir (جمادى الآخر) in the year 1438. The widget displays a grid of days with the 11th day highlighted. Navigation arrows are visible at the top of the calendar grid.

Widget Type	جمادى الآخر 1438						
Widget Description	ن	ث	ر	خ	ج	س	ح
Desired Sizes	7	8	9	10	11	12	13
Manufacture Date	21	22	23	24	25	26	27
	28	29
