You can now choose between the option to use a Gregorian or Arabic calendar for custom date fields.

The screenshot shows a user profile configuration page. At the top, there are fields for 'Agent' (John Doe), 'Team' (None), and 'Followers' (Broderick Mori). Below these are 'Labels' (bartell inc, bayer-o'kon, flatley-bednar, hahn ltd, kessler) and 'Language' (French). A 'New Calendar' field is present. A 'Widget Type' dropdown is set to 'Hijri'. A calendar widget is displayed, showing the Hijri month of 'جمادى الآخر' (Jumada al-Akhir) with the year '1438'. The calendar grid shows days from 1 to 28, with the 11th day highlighted. Navigation arrows are visible above the grid. At the bottom right, there are 'Save' and 'Cancel' buttons.
