How do I assign out-of-hour tickets to a particular team?

Ben Henley - 2024-01-09 - Comment (1) - Deskpro Legacy

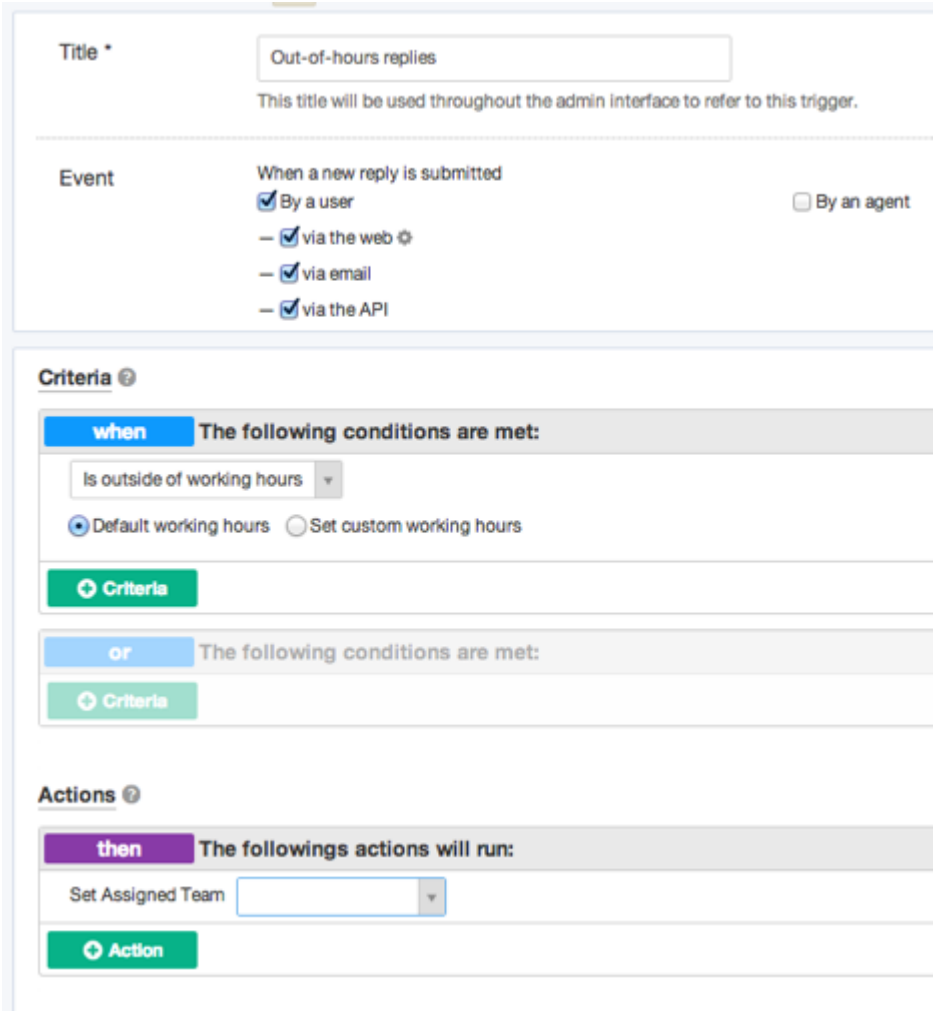

Suppose you want to treat incoming tickets differently if they are created outside of working hours. In this example, we'll show how to assign them to a night shift team.

This is easy to accomplish with triggers:

Note that the "working hours" used will be those **Default Working Hours** in **Tickets > Settings** - but you could choose to specify custom hours just for this trigger.

You'd probably also want the same team to receive *replies* to tickets from users, not just new tickets:
