

Changing the size of the navigation buttons

Lauren Cumming - 2016-10-04 - Comments (0) - Portal Customization

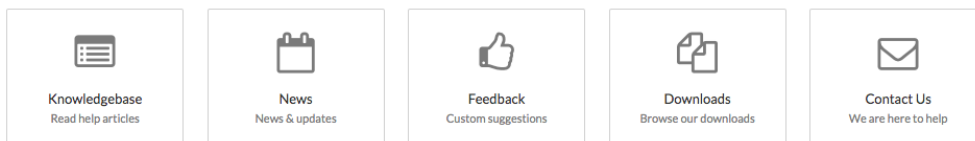

Question

How do I change the size of the navigation buttons on the main homepage to the size of the ones on the new ticket form?

Answer

This is a simple change.

Go to Admin > User Portal > Portal > Templates > home.html and replace **nav_buttons_big** with **nav_buttons**.

Changes the buttons from the above to the below.
