DeskPRO Build #149 Released

2012-10-17 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #149.

The following is an automatically generated list of changes in this release:

- Correct swedish flag for lang
- Varname typo when using multiple widget triggers on own elements
- Use standard login in billing login page (adds forgot pass)

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
