DeskPRO Build #15 Released

2012-06-25 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #15.

The following is an automatically generated list of changes in this release:

- Add new action to send an arbitrary email related to a ticket that a user can reply to
- Tweak tabindexes
- Tweak titles of trigger listing/types, fix select2's not being pre-filled out when editing
- Fix bad base url when navigating to other portal tabs in editor
- Fix block toggle, expand/collapse
- No remember me auto-login to admin interface

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
