DeskPRO Build #88 Released

2012-08-08 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #88.

The following is an automatically generated list of changes in this release:

- Do not require name field
- Fix not reading plain-text attachments as attachments
- Fix html entities in utf-8 chars in emails due to css processor
- Add json and jsonp rendering for omnisearch results

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
