## New Chat Widget colors available

2017-05-30 - Zara Marchesi - [0 Comments](#) - in [Product](#)

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Colors' section is active, showing a color picker with the hex code #e60300. Below the picker are options for 'Background color', 'Column', and 'Left'. The 'Preview Mode' tabs at the top of the right panel are set to 'In Chat'. The preview area shows a chat widget overlaid on a Google search page. A red button labeled 'Click for help' is visible in the bottom right of the chat widget. Arrows indicate the relationship between the color settings and the chat widget's appearance.
