

## New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is set to '#e60300', and the 'Position' is set to 'Right'. A color picker is open, showing a red color selection. On the right, a preview window shows the chat widget on a website. The widget includes a 'Sign In' button, a search bar with 'Google Search' and 'I'm Feeling Lucky' buttons, and a chat history showing 'Sample question' and 'Sample answer'. A red 'Click for help' button is visible at the bottom right of the preview. A black arrow points from the '#e60300' color code in the settings to the 'Click for help' button in the preview, indicating that the selected color is applied to the button.
