We've revamped [the DeskPRO website](#), with a fresh design to reflect the fact that DeskPRO is the cutting-edge helpdesk platform for 21st century organizations.

The screenshot shows the new DeskPRO website homepage. At the top is a dark navigation bar with a search bar, contact information, and language options. Below this is a white header with the DeskPRO logo and a menu of links: TOUR, DESKPRO FEATURES, PRICING, CUSTOMERS, and SUPPORT. Two buttons, 'TRY DESKPRO FOR FREE' and 'BUY NOW / GET QUOTE', are on the right. The main content area features a large hero section with the text: 'DeskPRO is the helpdesk platform for 21st century organizations. Beautifully designed. Simple to use. Flexible. Multi-channel. Powerful. Affordable. Your choice: our Cloud Helpdesk or On-Premise Helpdesk.' A prominent blue button says 'Start your free DeskPRO trial', with sub-points 'No credit card required' and '30 second setup'. To the right, a badge indicates '12 YEARS ESTABLISHED 2003'. Below the hero section is a large image of the DeskPRO software interface, showing a list of tickets and a detailed view of a ticket. To the right of the interface is a section for mobile apps with 'Get the mobile apps' and icons for iOS and Android. Below the interface image is a section titled 'Who's Already Using DeskPRO?' with the text 'The world's largest organizations trust DeskPRO to manage their customer support at scale.' This is followed by a grid of logos for various clients: Microsoft, HM Revenue & Customs, Cabinet Office, YAHOO!, tumblr., xerox, VALVE, 2CC, bitdefender, FLIGHT CENTRE, Panasonic, ARROW, PURE, NHS, I&I, INNOVA, bayt, Imagination, Southwire, HOTEL Chocolat, and Booz | Allen | Hamilton. A 'Click here to chat with us' button is at the bottom right.

There's now a lot more detailed information about DeskPRO's features, and how our platform helps deliver excellent customer service for organizations of all sizes. If you're trying to convince your workplace to adopt a modern helpdesk, or you just want to spread the word about us, be sure to take a look, and send a link to the new site to anyone who

could benefit from DeskPRO.

We've updated our [customer testimonials page](#) to include more of the big names who rely on DeskPRO every day. If you've been happy with your DeskPRO experience and you'd like to help us out by writing a brief recommendation, please drop us a line at [hello@deskpro.com](mailto:hello@deskpro.com).

We'd also like to hear from you if you notice any teething troubles with the new site, like broken links or missing images, or if it doesn't display well in your browser.
