

Adding an API Key

Lauren Cumming - 2017-11-09 - Comentarios (0) - Deskpro API

After accessing the Deskpro API Browser at **<http://support.example.com/api>** you need to enter an API key in the top right hand corner to test any of the functions. The error message will only pop up if the API key is missing.

For more information about how to create an API key and enter it click [here](#)
