How can I best manage Out of Office Agent accounts?

Sean Kerwin - 2023-10-06 - [Comentarios \(0\)](#) - [Admin](#)

This article has some suggestions for handling an agent going on vacation.

Out of Office replies

When an agent sets an automatic "out of office" message, you may get tickets created every time the message is sent.

The best way to handle these is to create a New Ticket trigger that will automatically delete the unwanted tickets, go to **Admin > Business Rules > Triggers**, and click the **New** button in the top right.

Add: New Trigger

3 Criteria

The criteria section is a list of terms that must match before the actions are applied to the Ticket.

When the following conditions are met:

	Email subject	contains	Out of Office Re	✕	+
--	---------------	----------	------------------	---	---

Or when the following conditions are met:

	Select...	Select...		✕	+
--	-----------	-----------	--	---	---

4 Actions

These actions will apply when all of the criteria pass.

Then the following actions will run

	Delete ticket	<input type="checkbox"/> Define reason for delete	✕	+
--	---------------	---	---	---

Monitoring replies to the agents' assigned tickets

You may want to have the agent unassign all their tickets before they go away and have them assigned to other agents. Another way to handle this is to make sure that all their tickets are assigned to a team, so other members of the team can monitor any replies.

If you don't want to change any assignments, an Admin can create a [custom queue](#) that shows you all the agent's tickets that have the status **Awaiting Agent**, or Agents can create a Ticket List. This makes it easy to spot when a user replies while the agent is away.

The screenshot shows the Zendesk Tickets interface. On the left, there's a sidebar with 'Queues' and 'Lists'. The 'Lists' section has an 'Unsaved List' with a 'Save' button. The main area displays a table of tickets with columns for ID, Subject, Agent, User, and Date Last Reply. On the right, there's a 'Filter' sidebar with various dropdown menus. A red arrow points to the 'Save' button in the 'Unsaved List' section. Another red arrow points to the 'Ashton Hale' agent name in the 'Agent' filter dropdown.

Round robins

Ensure that any Round Robins the Agent is part of are set to **Only assign to Agents that are online.**
