How can I change the name of the "Contact Us" tab?

Matthew Watt - 2023-08-30 - [Comentarios \(0\)](#) - [Admin](#)

Go to **Admin > Configuration > Phrase Translation**, then select the **Help Center UI** tab. Then you can type **"contact"** in the search box to quickly find the relevant phrases.

From here, you will want to search and click on the entry labeled `helpcenter.general.nav_contact`

The screenshot shows the 'Phrase Translation' interface in Deskpro. The left sidebar has 'Phrase Translation' highlighted. The main content area shows a search for 'contact' with a filter dropdown. The search results are grouped into 'Help Center Error (2)' and 'Help Center General (2)'. The entry 'helpcenter.general.nav_contact' is highlighted with a red box, showing the phrase 'Contact Us'.

Phrase	English	Customized?
Help Center Error (2)		
helpcenter.error.contact	If you feel that this is an error, please contact us.	
helpcenter.error.contact_us	Contact Us	
Help Center General (2)		
helpcenter.general.nav_contact	Contact Us	
helpcenter.general.nav_contact_desc	Get in touch for help	

A menu will open that will let you change your phrase on the right-hand side, then click save.
