

How do I customize the text that appears on my Help Center?

Cecilia Sam - 2023-08-17 - Comentarios (0) - Configuration

Can I change the text used on the Help Center outside of the Publish app content?

Yes, you can change almost all of the user-facing text on the Help Center and in emails using the Deskpro phrases system.

To do this, go to **Admin > Configuration > Phrase Translation**. To the phrase you want to change, you can use the **Search box** on the page or **Ctrl-F / Cmd-F** keyboard shortcuts to search for the phrase on each page.

The screenshot shows the 'Phrase Translation' page in the Deskpro admin interface. The page title is 'Phrase Translation' and it includes a 'Help' button. Below the title, there is a search box and a 'Filter' dropdown. The main content area is a table with the following structure:

Phrase	English	Customized?
Ticket Queues and Sets (27)		
obj_ticketfilter.10_title	Mine	✓
obj_ticketfilter.11_title	I'm Following	✓
obj_ticketfilter.12_title	My Team's	✓
obj_ticketfilter.13_title	My Pending	✓
obj_ticketfilter.14_title	Live	✓
obj_ticketfilter.15_title	Unassigned	✓
obj_ticketfilter.16_title	Unassigned	✓
obj_ticketfilter.17_title	Pending	✓
obj_ticketfilter.18_title	All Open	✓
obj_ticketfilter.19_title	All New Tickets	✓
obj_ticketfilter.20_title	SLA Warning	✓

At the bottom of the table, there is a pagination control showing 'Rows per page: 100' and '1-100 of 343 (332 Unique Items)'.

In the **Text box**, enter your changed version of the text and click **Save**. If you have more than one language installed on the helpdesk, you will need to define the change for each language.

Edit: obj_ticketfilter.10_title
