

Ability to disable certificate validation for SMTP outgoing email settings (5.5)

2017-03-13 - Lauren Cumming - Comentarios (0) - Product

Under **Admin > Tickets > Email Accounts** you can now choose to disable certificate validation for you SMTP outgoing emails.

Outgoing Email *

| | | |
|---------------|--|-------|
| | SMTP | ▼ |
| Host | <input type="text" value="localhost"/> | |
| Port | <input type="text" value="25"/> | |
| Secure | <input checked="" type="checkbox"/> Enable secure network connection | SSL ▼ |
| No validation | <input checked="" type="checkbox"/> Disable certificate validation | |
| Username | <input type="text"/> | |
| Password | <input type="password"/> | |
| | <input type="button" value="⚡ Test Account Settings"/> | |
