## New Chat Widget colors available

2017-05-30 - Zara Marchesi - [Comentarios \(0\)](#) - [Product](#)

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' section is expanded, showing options for Label, Size, and Colors. The 'Colors' section is further expanded to show a color picker for the background color, currently set to #e60300. A red arrow points from the color picker to the chat widget's background in the preview area. The preview area shows a chat widget on a website, with a 'Sign in' button, a chat history, and a 'Click for help' button. The interface also includes a 'Preview Mode' dropdown and buttons for 'Discard changes', 'Save', and 'Reset to default'.
