How do I change the number of news posts shown on the portal home page?

Ben Henley - 2018-04-17 - Comments (0) - Using Deskpro

Question:

I want to increase the number of news posts shown on the section of the portal home page highlighted below. How do I show the most recent five articles here?

Help

Answer:

You can do this by editing the portal templates.

1. Go to the portal editor at **Admin > User Interface > Portal**.
2. Click the **Template Editor** section at the lower left.

The image shows a sidebar menu on the left and a settings panel on the right. The sidebar menu includes items like Admin Dashboard, Setup, Agents, Tickets, Emails, CRM, User Interface (selected), *Default, Knowledgebase, News, Downloads, Feedback, Guides (disabled), Portal (selected), Site Widget & Chat, Ticket Form Widget, Chat, Apps, and Tasks. The settings panel is titled 'User Interface' and contains sections for THEME, WELCOME MESSAGE, LOGO, FAVICON, COLORS, FONTS, PAGE, PAGE LAYOUT & DESIGN, and TEMPLATE EDITOR. The COLORS section lists Brand Primary, Brand Success, Brand Info, Brand Warning, Brand Danger, Text Color, Text Color Lighter, and Link Color. The PAGE LAYOUT & DESIGN section has tabs for HEADER & FOOTER, HOME, CSS, and ASSETS. The TEMPLATE EDITOR section has a search bar and a list of templates under 'Search' and 'Portal' categories.

Admin Dashboard

- Admin Dashboard
- Setup

COLORS

- Brand Primary
- Brand Success
- Brand Info
- Brand Warning
- Brand Danger
- Text Color
- Text Color Lighter
- Link Color

FONTS

PAGE

PAGE LAYOUT & DESIGN

HEADER & FOOTER | HOME | CSS | ASSETS

These templates let you put HTML code at the very top or very bottom of the page.

Edit Header | Edit Footer

Edit Head Include

TEMPLATE EDITOR

Choose a template

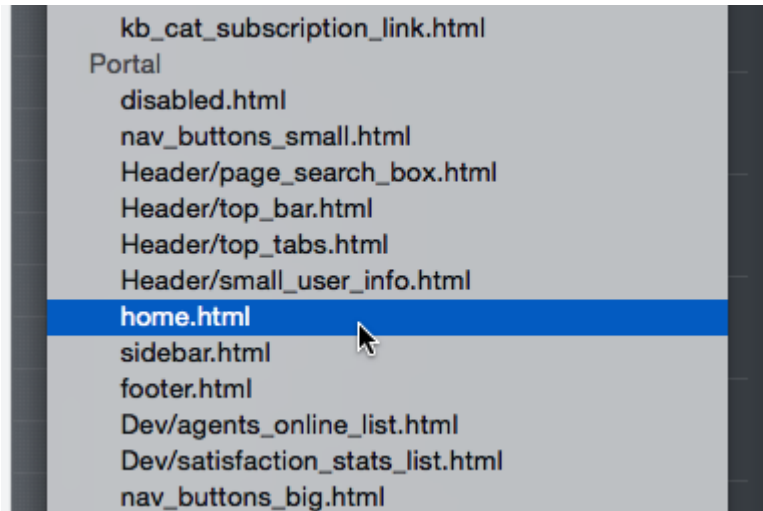

Search

- search_results_ajax.html
- search_results.html
- search_macros.html
- search_labels_results.html

Portal

- welcome-box.html
- sidebar.html

3. In the Portal section, select the **home.html** template.

6. The template editor opens. Find the line that says:

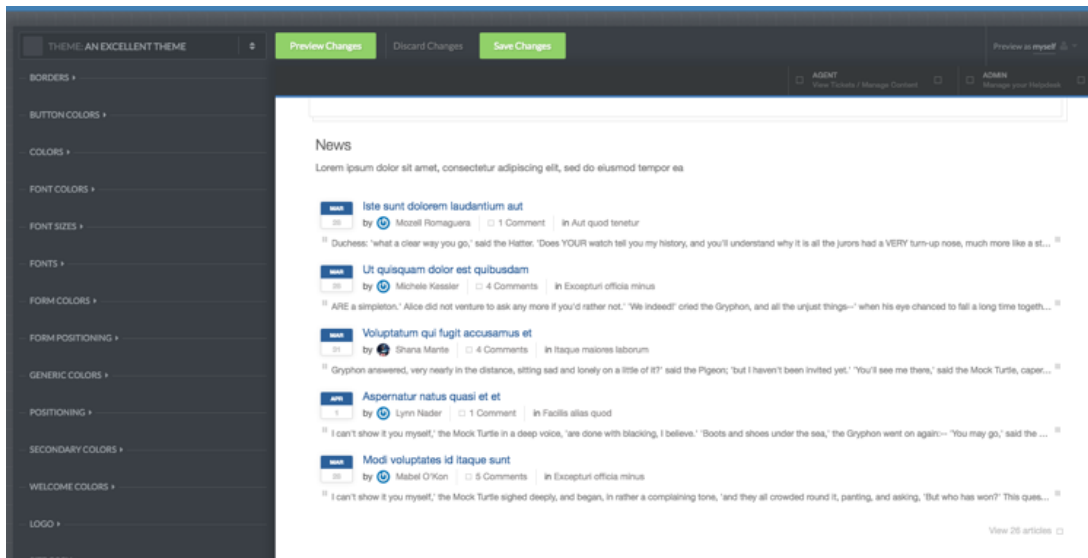

```
{% show section news_list_excerpts with { count: 2, show_category_link: true } %}
```

Edit the number in **count: 2** to the desired number of articles: in this case, 5.

```
33
34     {% if can_use_news() %}
35     <section>
36         <article class="news front-page-news">
37             <div class="large-title">
38                 <h1>
39                     <a href="{{ path('portal_news') }}">
40                         {{ phrase('portal.news.section-title') }}
41                     </a>
42                 </h1>
43                 <p>{{ phrase('portal.news.homepage-desc') }}</p>
44             </div>
45             {% show section news_list_excerpts with { count: 5, show_category_link: true } %}
46         </article>
47     </section>
48     {% endif %}
49
```

7. Click the X at the top right of the template editor to close it.

8. Click the green **Preview Changes** button at the top of the screen to see the effect of the edit and verify that the section now shows five articles instead of two.

9. Click the green **Save Changes** button at the top of the screen to save your edit and apply it to your live portal.
