Deskpro On-Premise Controller Release 2.14.2

2024-02-28 - Lara Proud - Comments (0) - Release Announcements

We're pleased to share the latest release of Deskpro's On-Premise Controller, version 2.14.2. This update includes some bug fixes to improve the OPC's functionality.

Bug Fixes

Ensure disk space checks report space issues on correct paths (SC 143683).

Ensure that domains added to the OPC and instances do not contain paths (SC 143110).
