Article Ordering Under Review

Tommy Jackson •

Forum name: #Feature Request •

Articles can only be ordered by date created or number of views. When unable to find something via a search, it would be nice to order by a few other fields such as subject and/or .created by to name a couple

I don't know if it falls under this suggestion or not but we really need to be able to manually .sort the lists of articles in the knowledgebase

Mario Zorica

10 سال پیش

We have the same requirement, just as Peter mentioned, we would like to have certain .article(s) always on top

Chris McWilliams

We would love the ability to custom order the article

Jeroen van der Steen

8 سال پیش

Good suggestion! The ability to choose a custom display order for the articles within a category would be very valuable to order articles on their expected relevance (and to "bury" more obscure articles). Alternatively, an alphabetical ordering would work (article titles could .(be prefixed with a number to fake custom sorting

This feature is critical to create easy-to-follow process flow for our customer. Random articles with no structure does NOT help us create the SELF HELP/SELF SERVE environment we are seeking. This feature should be MOVED CLOSER TO TOP of your dev list. Thanks

We are currently experimenting this problem as a major lack in the knowledge base edition interface. Could you please implement the ability to sort articles ? (eg : by name, number or last edition). Please consider our request as it has already been submitted by other customers, though it still hasn't been considered

We are currently experimenting this problem as a major lack in the knowledge base edition. We realized that it is not possible to sort articles (eg : by name, number or last edition). Considering the number of requests within the last seven years, we are convinced that it would be a major improvement
