Auto Save for creating new ticket Finished

Mahmoud Sheikhan •

**Forum name:** #Feature Request •

One of our agent wrote about more than 100 line and when internet discounted and reconnect again all text gone . and he wrote all of them again, if Deskpro add this option on create a new ticket will be so useful . Now our agent will write in Microsoft word and after that . copy and paste and really it is not good. Thank you

Agreed. We have this feature for replying to tickets, but not for new tickets - it's something .we plan to add
