Better field layout - not just vertical Collecting Feedback

Aled Treharne •

**Forum name:** #Feature Request •

I'd like a better field layout editor - at the moment, I can only stack the fields vertically which takes up a lot of space. We have a lot of additional fields to track information from customers - it would be really good if we could put them alongside each other instead of just stacking them.

This would be very useful for us as we have additional fields when certain criteria is met within another field.
