JIRA addon to display DeskPro-Tickets in JIRA issue Collecting Feedback

Forum name: #Feature Request •

Besides DeskPro we are also evaluating other help desks. Zendesk has a nice plugin and a corresponding JIRA add-on, which links tickets and issues bidirectional.

Is there something similary planned for DeskPro? As far as i can see, it's only possible to link .JIRA issues inside of Deskpro, but I can't see the tickets inside the jira issue
