Option on tab closing after ticket reply Collecting Feedback

Chris •

**Forum name:** #Feature Request •

In ver 3.5.2 there was an option in tech interface> Settings > General Where to redirect after replying to a ticket The options where Back to the ticket Next ticket in search Back to search ?listing Is there a way to add this so that when we reply the ticket won't close by default

.You can just uncheck "Automatically close ticket tabs when" in your profile preferences
