There is currently no option to translate download categories in the way you can for .Knowledgebase articles
.This is a feature we would find very useful

We'd like the ability to offer a translated version of our Downloads, similar to the translation .option available for KB articles currently

We recently added support for translating all Help Center items, extending it beyond the previous Knowledgebase Article option. So you can now create translated versions of News Posts, Guides, and Downloadable Files in the same way you could Knowledgebase Articles. You can learn more about this new functionality here:
