

Personalize your Help Center and Content

Lara Proud - 2023-09-12 - Comment (1) - Getting Started

The first step to personalizing your helpdesk is by naming it and adding your website details

To add information about your helpdesk go to **Admin > Configuration > Branding**. Select the brand you want to update

From here, you can edit your brand settings which will update them from the helpdesk defaults. You can update

- Brand Name •
- Favicon •
- Avatar •
- Brand Logo •
- Website Name •
- Website URL •
- Help Center Name •
- Your sub-domain •

From **Admin > Configuration > Branding**, you can also create additional branded Help Centers for different end-user-facing Help Centers by selecting **Add a Brand**

You can also manage the appearance of your various Help Centers in **Admin > Help Center > Help Center Design**. This lets you change your welcome message, fonts, and colors and add a logo to make your Help Center truly reflective of your brand

For more information about **Help Center Configuration and Branding**
.see the [Help Center Design](#) section of the Admin Guide

.Or read the next section in this **Getting Started** series on [Creating Dashboards](#)
