

?How can I reply to Tickets by Email

Russell Chappell - 2023-09-13 - Comment (1) - Agent

.As an Agent, you don't have to answer Tickets using the Agent Interface

You can just reply to the email notification generated by Deskpro, and the message will be .sent to the user and added to the ticket's history

You must enter your reply above the

=== REPLY ABOVE ===

.line in the notification

.If you cc: in another address, it will be added as a ticket CC

You can insert these special codes to carry out actions within Deskpro like changing the ticket's status. **Type the code at the very top of your reply.** Deskpro strips out the .codes so they are not seen by the user

Example	Description	Code
status resolved#	Sets the ticket status. Available options: <i>agentuserresolvedpending</i>	status <i>option</i> #
awaiting-agent#	Shortcut for #status <i>agent</i>	awaiting-agent#
awaiting-user#	Shortcut for #status <i>user</i>	awaiting-user#
