## How do I generate a report that doesn't include tickets ?created on the weekend

Benedict Sycamore - 2023-08-29 - Comment (1) - Deskpro Legacy
For organizations that only provide support during Monday to Friday, it makes sense to exclude data from the weekend in reports to accurately develop a picture of helpdesk .performance

If you'd like to create a report that excludes tickets that were created at the weekend, add the following to the WHERE line in your DPQL query
('WEEKDAY(tickets.date_created) NOT IN ('5', '6
As you can see, this sets conditions on which days of the are included in the report by .(excluding $5=$ (Saturday), and $6=$ (Sunday

## Note

Monday, $1=$ Tuesday, $2=$ Wednesday, $3=$ Thursday, $4=$ Friday, $5=$ Saturday, $6==0$ .Sunday

For example, here is a an example of a report which will give you a list of tickets created in .October, grouped by agent, whilst excluding tickets created on the weekend

| * Downloadas CSV |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Agent | $\hat{*}$ | ID | * | Status | ث | Date Created |
